

Jiffy® Plug

Jiffy Plug

The Jiffy Plug is an unique rooting media containing high quality substrate in a paper sleeve. This product, well known on the market as paper plug, has been proven to be a suitable propagation media for many crops worldwide. The Jiffy Plug is available in many different plug and tray sizes and manufactured using Tref substrates all according to the stringent RHP quality substrate standards.

Sustainability

In line with Jiffy's strategy of becoming a leader in the horticultural industry prioritizing sustainability, the

Jiffy Plug is also made available in a degradable paper sleeve version, making it a perfect fit with the bio-degradable and eco-friendly propagation, growing systems and Bio-substrates Jiffy and Tref are already offering.

Benefits of Jiffy Plug:

- Many years of experience
- Customer service and support
- Available in smaller quantities
- Quality RHP substrates inside
- Flexibility in production
- Worldwide availability
- Quick delivery
- Various plug and tray sizes available
- Additional services offered such as washing and re-use of trays

From start to finish!

Jiffy wants to be able to offer the grower a complete range of products and by adding the extended range of 'Jiffy Plug' to the list of already existing propagation products, we continue to

strive towards this goal. Starting with the propagation products, including the Jiffy Plug and finishing with one of the high quality RHP certified Tref substrates, we can truly say we are a company to be considered by any professional grower looking for a solution 'From Start To Finish!'
